# THE NEXT GENERATION

## GIPO AT BAUMA MUNICH

Experience new innovations live

Visit us at BAUMA in Munich, the world's leading trade fair for construction machinery.

GIPO will exhibit three high-performance plants, including brand-new models with ground-breaking engineering ingenuity. See our new crusher models for yourself and experience innovative technology and maximum performance at first hand.

Marvel at the proven GIPO P 130 GIGA and GIPO P 131 GIGA. This duo will be complemented by the unique, brand-new GIPO P 101 GIGA. With this model, we are setting new standards in flexibility and efficiency for the next generation.

Visit us at stand FN.919/9 in the outdoor area North and find out about the latest innovations and developments in our GIPO chalet.

Our team is looking forward to exciting technical discussions and encounters.
